## Aerial Runways / Zip Wires

Aerial runways/zip wires are a particularly action packed and fun feature of any playground. The zip wires are available in a variety of lengths and we can design and construct take off and landing platforms to a new or existing theme.

The wire is stainless steel with a braked safety pulley - it cannot be "slung" up or down the wire ropeway because as soon as you relieve load on it, the brake is applied. This feature avoids many third party impact injuries to children not directly involved in using the aerial runway, should they be within distance of the track.

Climbing ladder incorporated into the landing platform

### Product specification

**Price from £8,800.00 (wooden)**

**Price for Aerial Runway as shown:  
£12,600.00**

**Dimensions (for Aerial Runway as shown):**

Length:	25m	(82')
Width:	3m	(9'10")
Height:	4.5m	(14'9")

The dimensions listed are approximate.

Industrial theme aerial runway
