

Our current themes include space and pirate ships, prince and princesses, fairies, Peter Pan and anything you can dream up. The pirate theme includes beds, treasure chest toy boxes, wardrobes and drawers. The space ship theme also includes a space ship bed with a mission control desk, wardrobe and drawers.

Your child's bedroom is a place where dinosaurs once again roam the earth, where outer space is only a small step for mankind, where fairies dance and fly through the midnight sky, and where cowboys and Indians ride across the dusty open plains. Well that's how children see it. Our furniture goes some way to fuel those imaginations.

We carry a stock range of children's furniture, and we also design and manufacture to order.

The short base bed

Night-time shelf and reading light
