

Awesome is a word my children use a lot. When you stand up close to this train, this is a very apt description. This construction offers a large amount of play potential for children with many play features on multiple levels including ladders, poles, passages and climbing walls.

Trains can be designed as large or small machines, sedate or impressive, dirty working locomotives or spotless magnificent thunder horses. This particular one is a thunderhorse - it felt so real when we took her out for a photo shoot on a disused Norfolk railway embankment!

Constructed from hardwood, plywood and powder coated steel

The locomotive is a realistic, magnificent centre piece

### Product specification

**Price from £19,500.00**

**Dimensions:**

Length	6400mm (21')
Width	1600mm (5'3")
Height	3000mm (9'10")
Weight	2500kg (5512lb)

The dimensions listed are approximate sizes only and exclude play accessories.

The trains include many play accessories

All prices exclude VAT, delivery and installation
